

PRESS RELEASE

Cellutrak recovers 3 stolen range rovers in Toronto, Ontario valued at approximately \$330,000.

Nowhere to go, nowhere to drive, Covid-19 lockdowns leave high value vehicles unattended.

January 2021 -- On January 12th, 3 stolen Range Rovers were recovered from a condominium garage in Toronto. Cellutrak works with finance and leasing companies across Canada to help secure their assets. Once a stolen vehicle has been reported by a customer, Cellutrak will work directly with the company or police departments to provide assistance protocols. Cellutrak's 24/7 theft hotline is available to all Cellutrak customers to help get their vehicles back in a timely manner.

In the event of a theft, response times are crucial for being able to recover a vehicle. The loss of a vehicle can lead to insurance headaches and increased premiums. Installing a GPS tracking device is becoming a requirement for the car industry.

About Cellutrak GPS Tracking Solutions

Cellutrak, powered by Ituran, was created in North America in 2009. Cellutrak offers a complete line of military grade GPS tracking devices complete with a full suite of telematics functions and reporting for business, consumer and Kubota clients. Our solutions include theft prevention, asset management, fleet management and telematics, and more. We provide the latest technology in hardware and software, and are committed to providing the best customer service in the industry. Cellutrak has recovered millions of dollars worth of vehicles from all different industries.
